Guest,

At C_TEC, we promote the role of technology in our economy and advocate for rational policy solutions that drive economic growth, spur innovation, and create jobs. We also work to showcase the benefits of emerging technologies and how they are positively impacting different sectors.

Blockchain is an excellent example of the potential for a technology to change the way we work, communicate and live. This coming Wednesday, August 1st, C_TEC will host a [half day event](#) in Washington, DC, to explore the power of blockchain and debate policy ramifications by convening leading innovators, policy leaders, thinkers, and investors. Experts from Blockchain.com, Walmart, Accenture, ConsenSys, Guardtime and more will explore some of the use cases for the technology in agriculture, health, government, and financial services. We'll also provide attendees with an informative 101-session to lead our discussion. I'd be delighted to have you join me as my guest. [Register for Get Smart on Blockchain](#) being held at the US Chamber of Commerce, 1615 H Street NW, Washington, D.C. on August 1st beginning at 12:30pm.

Whether you view yourself as an expert or an amateur, can discuss mining in great detail, or are wondering the differences between bitcoin and ether, you'll be sure

to learn valuable information at [Get Smart on Blockchain](#) next week. I hope to see you there.

Best,

Tim Day
Senior Vice President
U.S. Chamber Technology Engagement Center

2018

On August 1st, C_TEC will explore the power of blockchain and debate policy ramifications by convening leading innovators, policy leaders, thinkers, and investors. What was once a fad about Bitcoin is now mainstream. Get Smart on Blockchain is more than a regular DC policy event. Its purpose is to bring critical stakeholders together to explore the future of blockchain and America's role in it. Get Smart is not about individual topics, but an emerging technology ecosystem.

Guest,

As means of introduction, I am Stacey Hutchinson, Director of Strategic Partnerships at the Chamber's Technology Engagement Center. I'm writing today to invite you to [Get Smart on Blockchain](#) being held at the Chamber next week on August 1st sponsored by Accenture with special content provider Bloomberg. Because of your interest in tech, I'd be happy to include you as my special guest; [click here to register](#).

Blockchain technology has the potential to transform every industry. In Washington, most of the conversation has centered on cryptocurrency or data security, but what about the power the technology may harness across sectors? What will the blockchain policy landscape look like?

On August 1st, C_TEC will explore the power of blockchain and debate policy ramifications by convening leading innovators, policy leaders, thinkers, and investors. Discussions will range from a 101 session to blockchain in agriculture, fintech, health, and regulation.

Find additional details on our [website](#).

I so hope to see you next week on August 1st at 1pm, and please don't hesitate to reach out in the interim.

All the best,
Stacey

U.S. Chamber of Commerce

Thanks for getting #BlockchainSmart with us!

On Wednesday, August 1st the U.S. Chamber of Commerce, Chamber Technology Engagement Center (C_TEC), hosted Get Smart on Blockchain. Discussions ranged from the basics of blockchain to the emerging technology's potentially transformative impact on industries such as: healthcare, insurance, retail, agriculture, and even government.

More than 500 industries and government professionals joined for the opportunity to hear from a diverse group of speakers. Attendees walked away with a deeper knowledge of blockchain and a new perspective on the future of this emerging technology with a focus on America's role in shaping it.

Thank you to those who attended the event. We hope you enjoyed the program and found it a good use of time. For those not able to make it, please find a link that will take you to a recording of the event below.

We look forward to continuing the conversation.

Enjoyed it so much you want to see it again?
